Experimental drawing workshops

This workshop, open to anyone, encourages participants to experiment and search for various ways of seeing and drawing: offering an experience in mark-making and a language to describe the unspeakable.

Join the classes in an informal creative environment.

Jude Roberts has a Fine Arts degree in print media, specialising in drawing and painting, and is a practising artist who has experience over several years tutoring within communities and schools.

Norman Park Substation

97 Wynnum Rd, Norman Park
